

Seven ways to transform collaboration with Teams

Enhance teamwork and productivity with AI-driven tools that facilitate seamless collaboration.

The collaboration challenge

Complexity is a barrier:

70%

of CIOs say their companies would benefit from greater simplicity across platforms.¹

Productivity pressure:

53%

of leaders say productivity must increase to meet business goals.²

Seven ways Teams transforms collaboration

1 Unified conversations

Find information easily with a consolidated view of all your chats, channels, and teams. Organise your way with custom sections and favourites.

2 Smart navigation and organisation

Navigate and triage messages with filters and @mention views. Stay on top of every conversation.

3 Familiar calendar experience

Enjoy seamless scheduling with a calendar that works across Teams and Microsoft Outlook, keeping everyone aligned.

4 Real-time co-creation

Bring together all project elements in one place with Microsoft Loop Workspaces. Co-create and track progress in real time.

Seven ways Teams transforms collaboration

5 AI-powered efficiency

Surface information from chats, emails, meetings, and calls with Microsoft 365 Copilot. Quickly catch up and draft messages faster.

6 Integrated tools and apps

Connect third party apps directly into Teams to streamline workflows and reduce context switching.

7 Scale expertise with agents

Delegate tasks and get answers by @mentioning agents like Facilitator, Interpreter, and Employee Self Service. Plus, extend collaboration with the Channel Agent in Microsoft Teams, a powerful tool that enhances team collaboration by automating tasks and providing quick access to information.

Empowering transformation together

Syscom helps organisations unlock the full potential of Teams by consolidating industry solutions, customising workflows, and delivering expert guidance for digital transformation.

Partner with us to:

Accelerate deployment and adoption.

Integrate specialised apps and services.

Drive measurable business outcomes.

Teams Premium: Make the most of every engagement
